Know where your children are. Keep them safe.

# Internet of Things and wearable devices

Opportunity for MGM Wireless in family safety and supporting independent living

- First product: AllMyTribe, available Apple App Store
- Applies capabilities from MGM Pinpoint for family safety and independent living support
- Direct marketed to existing MGM product users
- Currently download for free to establish presence and user base prior to wearables offering
- Early days, but downloads have risen from 8 per day to 50 per day

# Current product and market trends

Business is continuing to evolve and capitalise on market and technology developments

## 1. Core attendance-focussed business

- messaging has superficial attraction but adds complexity of multiple exclusive platforms – not a global solution
- SMS via a mobile offers single reliable channel
- MGM developing sophisticated messaging app that provides optionality of SMS and messaging
- potential to lift margin of core business over time

## 2. Higher margin social messaging and engagement products

- Roll-out of MGM School Events, trialled in FY15, to add revenue stream
- Growth from Outreach+

## 3. Child safety and wearables

- early stages
- looking to grow base, establish online presence to leverage product
- taking revenue stream outside school markets

## 4. Other product initiatives in train that leverage capabilities

# In summary

1. MGM Wireless is a world - leading developer and provider of disruptive software for schools
2. Sustained record of profit growth and cash generation over 6 years
3. Business model features strong cash conversion, high and improving margins
4. Opportunity-rich environment for MGM Wireless through technology advances and societal changes in cloud computing, smartphone use and now Internet of Things
5. Commitment to R & D and innovation of new products is expected to see product range continue to grow.
6. R&D to increase in FY16 as new product/projects developed
7. FY16 results expected to be consolidation on record FY15, as business transitions from being driven by SMS attendance focus to broader business base.
